

This program will instruct students in backflow mechanics and how cross connections can be addressed and/or eliminated. State regulations will be presented and explained. DHEC will teach testing procedures for the PVB, DCVA, and RP devices. Students will test, troubleshoot, and repair these devices as part of the workshop.

15 hours of CEU credit will be awarded for this program.

Completion of this training is a prerequisite for certification as a Backflow Prevention Device Tester in South Carolina.

In order to receive certification, DHEC will require that students attend all three days of the workshop, pass a written exam, pass a hands-on exit exam, and own or have clear access to the appropriate testing equipment. You are not required to purchase testing equipment prior to the workshop.

Enrollment is limited to 30 people.

To register, complete, detach, and mail the registration form (along with your check or money order payable to SCDHEC) to the address shown below:

**SCDHEC—Bureau of Water
Backflow Prevention
2600 Bull Street
Columbia, SC 29201**

DHEC will not bill you or your company. Do not send a purchase order.

If training is cancelled, your registration fee will be refunded. If you are unable to attend, you may send a substitute to avoid losing your registration fee. Please note there are no refunds and applying the fee to a future class is not possible.

BACKFLOW PREVENTION CERTIFICATION WORKSHOP

About the Training

This workshop will be held Feb. 25, 26 & 27, 2020 at the Myrtle Beach Train Depot, Myrtle Beach, SC.

Location: The Myrtle Beach Train Depot located at 851 Broadway Street, Myrtle Beach SC 29577, is listed on the National Register of Historic Places. Built in 1937, the Depot was restored and re-opened in 2004 and is available for events and gatherings. Call 843-918-4906 for location information

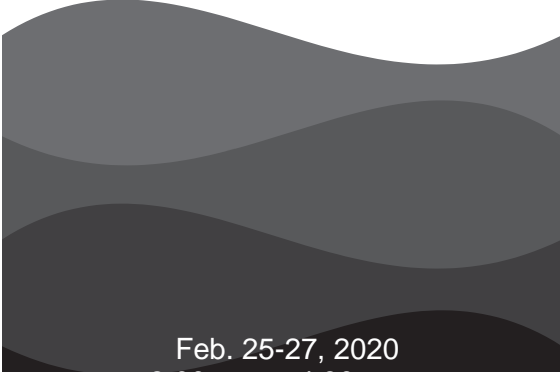

Attendees must be present and prepared to begin training promptly at 8:00 a.m. every morning of the workshop. This training will include several extended sessions where the students are testing, troubleshooting and doing minor repairs on PVB, DCVA, and RP devices.

Cost: \$250.00 per person for the three days. The cost will cover all necessary training materials. Please bring your own paper and pen. We will award fifteen hours of CEU credits for those who successfully complete this training. Coffee will be provided. Meals are not included with class registration.

For additional information, call Steve Fox at (803) 898-4426.

Workshop Leader

Steve Fox, with South Carolina Department of Health and Environmental Control (DHEC), Bureau of Water, will conduct this workshop. Steve has been with DHEC since Nov 2019 but has concentrated his efforts in backflow prevention training and program management for the past twenty plus years. Steve comes to the state program from an outside firm where he was a Cross-Connection Control Training coordinator and assisted communities with Cross-Connection program management. Steve holds many industry certifications to include ASSE, UFTREEO & ICC. Steve, aka: Sgt Backflow brings lots of experience and knowledge in backflow prevention to this workshop.
